

HEALTH CERTIFICATION FORM

CHOOSE ANY OR ALL OF THE OPTIONAL CERTIFICATIONS TO BE RECORDED BY
UNITED ALL BREED REGISTRY

CANINE INFORMATION:

NAME: _____ BREED: _____
(IF APPLICABLE) REGISTRATION NUMBER: _____
SEX: _____ COLOR: _____

OWNER INFORMATION:

NAME: _____
ADDRESS: _____
CITY: _____ STATE: _____ ZIP: _____
PHONE: (_____) _____

HEART:

I CERTIFY THAT THE ANIMAL LISTED ABOVE IS APPARENTLY FREE OF ANY MURMUR OR OBVIOUS DEFECT.

INITIALED BY VETERINARIAN: _____ DATE: ____/____/____
If not NORMAL, circle grade of Cardiac Murmur: 1 2 3 4 5 6

PATELLAS:

I CERTIFY THAT THE ANIMAL LISTED ABOVE IS APPARENTLY FREE OF ANY SERIOUS DEGREE OF PATELLA LUXATION OR DYSPLASIA.

INITIALED BY VETERINARIAN: _____ DATE: ____/____/____
If not NORMAL, circle grade of Patellar Luxation: 1 2 3 4

HIPS / OFA:

I CERTIFY THAT THE ANIMAL LISTED ABOVE APPEARS TO BE FREE OF DYSPLASIA AND HAVE ATTACHED A COPY OF OFA CERTIFICATION.

INITIALED BY VETERINARIAN: _____ DATE: ____/____/____
If not Excellent, please choose a grade: Good Fair Borderline Mild Moderate Severe

EYES:

I CERTIFY THAT THE ANIMAL LISTED ABOVE IS APPARENTLY FREE OF ENTROPIA, JUVENILE CATARACTS, AND ULCERS.

INITIALED BY VETERINARIAN: _____ DATE: ____/____/____

BITE:

I CERTIFY THAT THE ANIMAL LISTED ABOVE HAS A CORRECT BITE FOR ITS BREED.

INITIALED BY VETERINARIAN: _____ DATE: ____/____/____

DNA:

I HAVE ATTACHED A COPY OF THE DNA PROFILE ON THE ABOVE LISTED ANIMAL.

SIGNATURE OF VET OR BREEDER: _____ DATE: ____/____/____

EXAMINING VETERINARIAN'S INFORMATION:

VETERINARIAN'S NAME: _____
CLINIC NAME: _____
ADDRESS: _____
CITY: _____ STATE: _____ ZIP: _____
SIGNATURE: _____

Please mail this form with your application for registry or a copy of the animal's current UABR registration certificate, to United All Breed Registry. *Please attach copies of all applicable OFA certifications.* Details of grading are on reverse of this page.

The information will be recorded as part of your animal's data, and can appear on the applications of their future offspring as well. Please request this service when you submit your litter applications.

Congenital Cardiac Grades

Grade 1: very soft murmur

Grade 2: soft murmur that is readily evident

Grade 3: moderately intense murmur not associated with a palpable vibration (precordial thrill)

Grade 4: loud murmur; a palpable vibration that is not present or is intermittent

Grade 5: loud cardiac murmur associated with palpable vibration; murmur not audible when stethoscope is lifted from thoracic body wall

Grade 6: loud cardiac murmur associated with a palpable vibration and audible even when the stethoscope is lifted from the thoracic wall

Patellar Luxation Grades

Grade 1: Patella easily luxates manually at full extension of the stifle joint, but returns to the trochlea when released.

Grade 2: There is frequent patellar luxation, which, in some cases, becomes more or less permanent. The limb is sometimes carried with the stifle remaining slightly flexed.

Grade 3: The patella is permanently luxated with torsion of the tibia and deviation of the tibial crest of between 30 degrees and 50 degrees from the cranial/caudal plane.

Grade 4: The tibia is medially twisted and the tibial crest may show further deviation medially with the result that it lies 50 to 90 degrees from the cranial/caudal plane. The patella is permanently luxated.

Hip Grades

Excellent: superior conformation with a very tight joint space and almost complete coverage of the ball by the socket.

Good: Most of the socket covers the ball and there is a congruent joint space.

Fair: Slightly subluxated joint space, but with good ball coverage by the socket, or , socket's weight-bearing surface is deviated inward.

Borderline: no clear consensus on whether hips are normal or dysplastic.

Mild Dysplasia: joint is obviously subluxated; usually a shallow socket only partially covering the ball

Moderate Dysplasia: Significant subluxation; ball is barely seated into a shallow socket

Severe Dysplasia: ball is partly or completely out of socket; large amounts of secondary arthritic changes

For full details on these grades, please consult **www.OFFA.org**
